## Practice Goals and Objectives

Week 1:

Week 2:

Week 3:

Week 4:

Week 5:

Week 6:

Students are required to practice five days a week. This is to ensure that students develop proper playing skills. Small increments of consistent practice are much more beneficial than large amounts of practice every few days. Students should practice **25 minutes** a night. For every day under the required 5 days, there will be 5 points off.

Students that practice a total of 150 minutes or more in a week this six weeks will receive an extra credit grade of 110.

**We will not accept practice records without a parent signature. If you lose a copy of your practice record, please check the band website to download another copy.**

Practice records are due every **Monday**. The school late policy will be followed for grading practice records.
